Westfield
Business School

At **Westfield Business School**, we are more than an academic institution since 2000, we have been a catalyst for transformational leadership and sustainable impact.

Located in the heart of Miami's thriving financial district on Brickell Avenue, our campus places students at the center of international business, innovation, and entrepreneurship.

As an American business school with a global footprint, we offer a dynamic, multicultural learning environment that reflects the complexities and opportunities of today's global economy.

Our purpose is to awaken human potential to create meaningful change in organizations, in society, and across the planet. Through innovative, flexible, and ethically grounded programs, we prepare professionals to lead with purpose, embrace innovation, and generate value across cultures and industries.

By combining academic excellence with real world relevance, we empower a new generation of leaders to think globally, act strategically, and lead sustainably.

Our Mission

Mission

The purpose of our business school is to awaken human potential to generate a positive impact on society. Through innovative educational programs, we strive to inspire people to dream big, collaboration and creativity, and provide the necessary tools to turn their purpose into reality.

Future

We aim to develop business leaders and change makers who are deeply committed to the well-being of society, building a community of bold individuals who will make a meaningful difference in their careers and beyond.

Our goal is to challenge the status quo, promote excellence, and empower people to reach new heights, contributing to a global movement of transformation that changes lives and builds a better future for all.

Why Choose Westfield Business School?

At **Westfield Business School**, we redefine business education with an experiential, practical, and data-driven approach. Our programs equip professionals with strategic insights, leadership skills, and cutting edge tools to thrive in today's global business environment.

Triple Bottom Line Model

Our approach **People, Planet, and Profit** across all programs, promoting ethical leadership and sustainable innovation in business strategy.

Accredited and Globally Recognized

Westfield is accredited by the Distance Education Accrediting Commission (**DEAC**) and licensed by the Florida Department of Education, ensuring national recognition and academic excellence.

Blended Learning with High-Impact In-Person Sessions

Our blended format combines online coursework with mandatory in person sessions in Miami, allowing professionals to balance their careers with immersive, high-impact learning experiences.

Strategic Location in Miami

Study in the **heart of Brickell, Miami**, a financial and innovation district with global reach and high professional visibility.

Applied, Hands-On Learning

Through real-world cases, team projects, and a Capstone Project, students solve actual business challenges and graduate ready to lead with confidence and competence.

World-Class Faculty & Industry Experts

Learn from an **elite team of PhD professors** and business practitioners who bring academic rigor and real-world experience into every session.

Global Executive Network & Corporate Alliances

Connect with a diverse international community of peers and benefit from partnerships with top companies such as **Bancolombia, Globant, Coca Cola Femsa, Sura, Isa, and Telefónica**.

➤ **At Westfield, theory meets action our programs prepare you for success from day one.**

MIAMI: Your Gateway to Global Business

Miami

As one of the world's most diverse, international and forward thinking cities, Miami offers locals and international students a unique environment to grow both academically and professionally.

Positioned as a global hub for business, trade, and entrepreneurship, Miami connects North and South America and the world through innovation, finance, and cultural exchange.

With its multicultural energy, booming startup ecosystem, and direct access to global markets, studying in Miami means more than earning a degree it's about building a global mindset and a professional network in a city where business knows no borders.

About the program

The Master in Financial Analytics at Westfield Business School is a cutting-edge program designed to equip professionals with the analytical tools and strategic mindset needed to make high impact financial decisions in a data driven world.

This 16-month program blends financial theory, quantitative modeling, data science, and business intelligence to prepare future financial leaders for the realities of global markets. Through a hybrid format combining online flexibility with immersive in-person experiences, students gain both the technical expertise and practical experience needed to thrive in roles such as financial analyst, risk manager, investment strategist, or fintech consultant.

Grounded in the Triple Bottom Line model (People, Planet, and Profit), this program emphasizes ethical decision making, sustainable value creation, and innovation in finance.

With hands on projects, expert faculty, and access to a global network of professionals, the Master in Financial Analytics is designed to elevate your career and shape you into a strategic financial leader in today's complex and fast paced business environment.

Who Is This Program For?

Financial Analytics

The Master in Financial Analytics is designed for early to mid career professionals who aim to lead in the financial sector through advanced data driven decision making. This program is ideal for:

Finance professionals looking to enhance their technical and analytical capabilities in areas such as risk management, investment strategy, and financial modeling.

Data analysts or engineers seeking to transition into finance roles with a strong foundation in analytics and business intelligence.

STEM graduates who want to apply their quantitative skills to real world financial challenges.

Fintech innovators and consultants who need a solid grounding in financial theory, analytics, and digital transformation.

Professionals in banking, consulting, or asset management aiming to move into strategic roles with high impact decision making responsibilities.

Whether you are looking to upskill, pivot your career, or expand your leadership potential in the finance industry, this program will prepare you to thrive in a competitive, data driven global economy.

Hear from Our Graduates: Real Success Stories

➤ Testimonies.

Lorena Cardona
Executive MBA

“This MBA has been an opportunity to gain knowledge beyond my area of expertise and that’s the magic I find in this experience. It opens us up to new challenges and allows us to develop new capabilities. Beyond academic learning, it’s also a journey of personal transformation”.

Giulliano Bruno Decicino
Executive MBA

“I take with me the following phrase: learn, unlearn, and relearn. A comment here from the Triple Bottom Line, which is Planet, Profit, and People. I would add a fourth Passion. Undoubtedly, passion for life and for planting the seed of the world we want to leave for our children”.
